👤 ABOUT ME

I am a 22-year-old masterand with great ability to work in team environments and great attention to detail. I am very dedicated to my passions and willing to improve my skills. Over time, I built a strong foundation in mathematics and programming. Being a highly ambitious and hardworking individual, I am ready to try anything to expand my knowledge as long as you are willing to give me the opportunity to work with you.

💼 EXPERIENCE

accesa
FULL TIME - REMOTE - OVER 1 YEAR
Cluj-Napoca, Cluj, Romania

- **Junior .NET Software Engineer**
  OCT. 2023 - CURRENT

  - Presently operating in the Manufacturing and Industries area.
  - Utilizing technologies including .NET, Windows Presentation Forms, SQL, SSMS, DevExpress, Git, and Azure DevOps
  - Enhancing user interface with CSS and JavaScript.

- **Full-Stack Software Engineer Intern**
  IUL. 2023 - OCT. 2023

  - Developed communication, consultancy, and teamwork skills.
  - Embraced and applied AGILE methodology through dedicated workshops.
  - Mastered both backend and frontend development, working with technologies such as SSMS, TypeScript, SignalR, .NET, Angular, Entity Framework, Bootstrap, and REST API.

🤝 VOLUNTEERING

cariereinIT.ro - march 2023
I was able to develop my communication skills and learn more about industry trends. I also had access to valuable information and resources, as well as opportunities to make connections with professionals in the field. It was a great way to broaden my horizons and improve my programming knowledge.

PROJECTS

2024 SMART SERVICE

What is it?

It is an auto repair shop management app that streamlines scheduling, repair tracking, and invoicing for customers and service personnel.

What I learned?

How to build fully responsive websites for any device.
How to create and work with REST APIs.
How to work with password hashing and JSON Web Tokens.
How to deploy applications using Azure.

github.com/tudorsuiu/smart-service-.net-angular

2023 EMPLOYEE ENGAGEMENT

What is it?

An application manages quests across departments, motivating employee skill improvement through completed quests, validated by department managers for point rewards.

github.com/tudorsuiu/employee-engagement-javafx

2022 SOCIAL NETWORK

What is it?

It is a classic social networking application. You can create accounts, add/delete friends, check your friends list and verify the status of your friendships.

What I learned?

How to use design patterns
How to work with PostgreSQL
How to create a GUI application using JavaFX

github.com/tudorsuiu/social-network-javafx

2021 PHARMACY MANAGER

What is it?

An application that has the role of managing the data of a pharmacy. With each transaction, the customer who buys the medicine will receive points on his loyalty card.

What I learned?

How to use OOP in an efficient way
Three-Layer Architecture
How to write code that can be easily understood by anyone

**github.com/tudorsuiu/pharmacy-manager-python**
